

John C. 'Buck' Field - MBA, PMP, CPM, PBA

INFORMATION PROJECT LEADER Architected World's Largest Online Financial System

I analyze complex information systems and their context to maximize value, identify current and potential strengths, and build more robust IS management. I strategically coordinate data across organizational silos. I build trust through competence, honesty, and fairness with respect for individuals, relationships, and diversity. Creating new, high-value information systems and software is one of the joys in my career. When your situation needs my combination of skills and perspective, feel free to reach out to buck.field@fieldoperative.com.
